Experiment – 4

Library Book Reservation System Using Zoho One (SaaS)

Aim

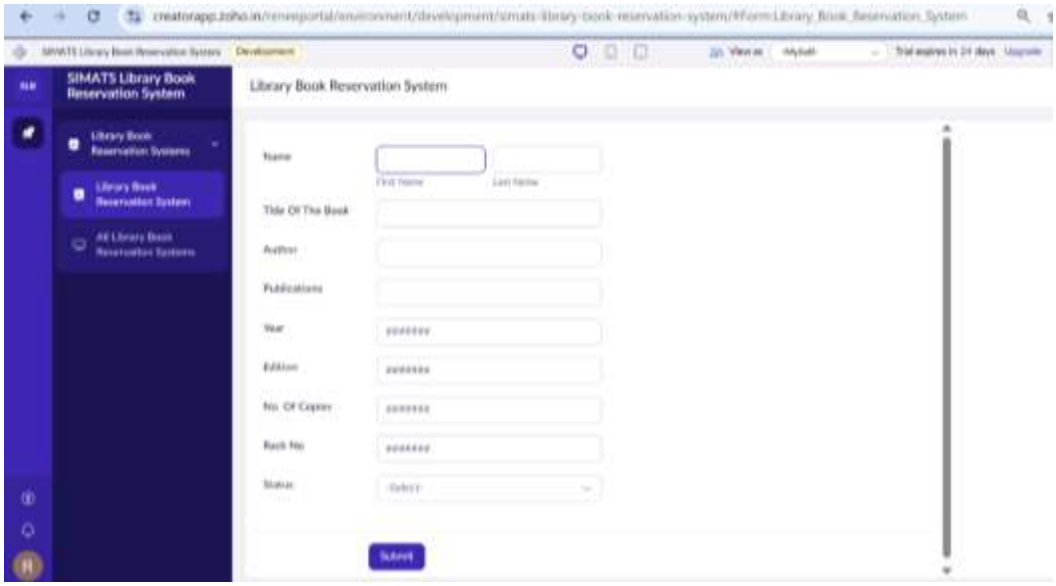

To create a Library Book Reservation System for SIMATS Library using Zoho One as a cloud-based Software as a Service (SaaS) application.

Procedure

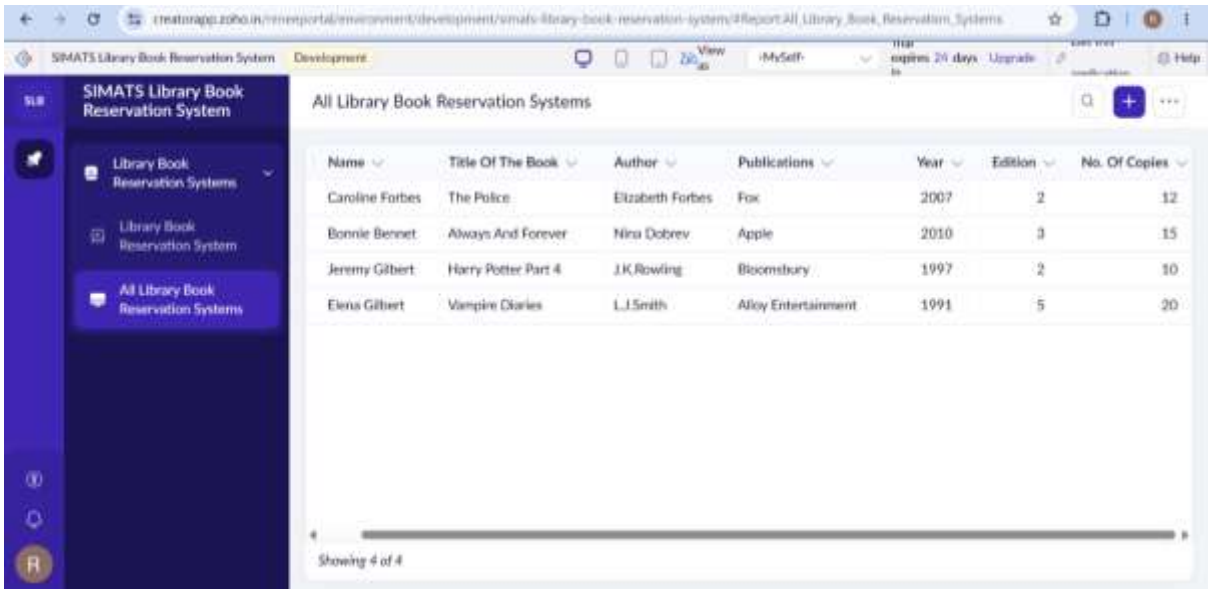

1. Log in to the Zoho One cloud platform.
2. Open Zoho Creator from the Zoho One applications.
3. Create a new application for the Library Book Reservation System.
4. Create a new form named **Library Book Reservation**.
5. Add the required fields:
    - Student Name
    - Register Number
    - Title of the Book
    - Author
    - Publication
    - Year of Publication
    - Edition
    - Number of Copies
    - Rack Number
    - Book Status (Taken / Returned)
6. Configure the field types according to the data required.
7. Design and arrange the form for easy user interaction.
8. Save and publish the form.
9. Enter sample library book details into the form.
10. Submit the form and verify that the entered data is stored in the cloud.
11. Test the application by entering different book details and updating the book status to Taken or Returned.

12. Verify that the Library Book Reservation System works successfully as a SaaS application.

Input

Output

All Library Book Reservation Systems

Name	Title Of The Book	Author	Publications	Year	Edition	No. Of Copies
Caroline Forbes	The Police	Elizabeth Forbes	Fox	2007	2	12
Bonnie Bennet	Always And Forever	Nina Dobrev	Apple	2010	3	15
Jeremy Gilbert	Harry Potter Part 4	J.K.Rowling	Bloomsbury	1997	2	10
Elena Gilbert	Vampire Diaries	L.J.Smith	Alloy Entertainment	1991	5	20

Result

Thus, a Library Book Reservation System for SIMATS Library was successfully created using Zoho One and demonstrated as a Software as a Service (SaaS) application.
